

Tack Board - 96 inches wide

Sheet - 90 inches wide

Hey Doc...have you done yours? Advance Care Planning

Our Study:

107 physicians engaged in one-on-one conversations about their own ACP
 → **44%** completed the follow-up survey

Our Results:

72% spent more time thinking about their ACP preferences after the conversation

39% discussed these preferences with loved ones

→ **35%** then explored their loved ones' ACP preferences

17% said they felt more comfortable talking with patients about ACP (most were already very comfortable)

82% thought physicians who have gone through their own ACP journey are more likely to talk ACP with patients – and to feel more comfortable doing so

Our Spin-off:

50 Year Vision GPs, Hospitalists and Specialists came together to co-create a 50-Year Vision for ACP in our community

Tack Board 48 inches high
